VET CENTERS

Vet Centers are community-based counseling centers that provide a wide range of social and psychological services, including professional readjustment counseling to eligible veterans, active-duty service members, including National Guard and Reserve components, and their families. Readjustment counseling is offered to make a successful transition from military to civilian life or after a traumatic event experienced in the military. Individual, group, marriage and family counseling are offered in addition to referral and connection to other VA or community benefits and services. Vet Center counselors and outreach staff, many of whom are veterans themselves, are experienced and prepared to discuss the tragedies of war, loss, grief and transition after trauma.

Vet Centers

Life isn't always easy after a deployment. That's where we can help. We offer confidential support for Veterans, service members, and their families at no cost in a relaxed, non-medical setting. Our services include counseling for needs such as

depression, post traumatic stress disorder (PTSD), and the psychological effects of military sexual trauma (MST). We can also connect you with more support in VA and your community. All services are strictly confidential.

Mobile Vet Center

Our 83 Mobile Vet Centers (MVC) are large mobile vehicles with space for confidential counseling and are used to provide outreach to eligible individuals in communities that are distant from existing services. MVCs can access records through

encrypted connection. With this capability, MVCs are often called upon to support VA in its important mission of providing emergency services in response to national emergencies and disasters.
